

Skills from Machine Learning

Technical Skills:

- Experience working with R language
- Experience working with Python language
- Experience working with C++ language
- Experience using R Studios
- Experience using Google Colab
- Experience using Visual Studios
- Experience using different data sets
- Experience using machine learning algorithms and techniques such as Linear Regression, Logistic Regression, Decision Trees, Neural Networks, kNN, Clustering, PCA dimensionality reduction, LDA dimensionality reduction, and Boosting

Soft Skills:

- Analytical Thinking
- Problem Solving
- Scheduling Management
- Time Management
- Project Management
- Communication
- Flexibility
- Ability to work with a team
- Adaptability
- Quick Learning
